EXPERIENCE

Assistant Exhibition Curator

Marques da Silva Institute Foundation

Jan 2025 - Ongoing

- Led guided tours of the exhibitions "Constructed Landscapes" and "Marques da Silva: Portrait of an Architect," providing detailed interpretations of the works and deepening my understanding of modern Portuguese architecture.
- Developed the exhibition plan using a study model, organizing the spatial arrangement of the works and contributing to the preliminary visualization of the exhibition layout.

Freelancer in Manual Models

Marques da Silva Institute Foundation

April 2025 - Feb 2026

- Organized and coordinated a team of six people in the production of 21 hand-drawn models for the "Maia Architecture Month" exhibition, ensuring quality and meeting deadlines.
- Conducted site visits to better understand the projects, improving the accuracy and fidelity of the models' representations.
- Constructed hand-drawn models based on architect José Carlos Loureiro's original drawings, ensuring precision and accuracy in the project's representation.

Architecture and Social Media Management Intern

Studio WER

Jun 2023 - Mai 2024

- Contacted suppliers to obtain information about quotes, products, and scheduling meetings.
- Assisted in developing projects alongside other architects.
- Managed the production of content for the firm's social media channels, such as Instagram and Pinterest, increasing the reach of posts and reels by over 400%.
- Attended supplier events to assess market trends and apply them to current projects.

PROJECTS

Modular Vest

2026

Investigated the relationship between fashion and architecture as the act of dressing bodies and spaces, translating this research into the Modular Vest project—a garment-object with three functions: dressing, carrying as a bag, and sheltering as a tent, emphasizing adaptability and multifunctionality.

Ramalde Multifamily Housing Building

2023

Built a multi-family tower house in the Ramalde area, modeled in Revit, which led to the volumetric and urban redevelopment of the site.

EDUCATION

Faculty of Architecture of the University of Porto

Master's degree

Bachelor's degree

2023 - Ongoing

2020 - 2023
